

Queensland Paediatric Sepsis Education Catalogue

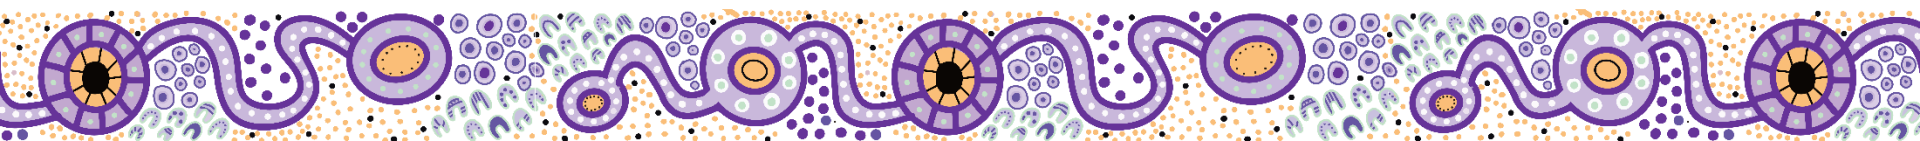

Training Guide for how to use the Paediatric Sepsis
Education Catalogue

**Comprehensive
resources for paediatric
sepsis awareness
training**

Purpose and Function of the Education Catalogue

- A central hub of peer reviewed paediatric sepsis education resources
- Supports clinicians, educators, and consumers
- Flexible learning formats to suit time, preference, discipline, experience level and local needs
- Includes webinars, eLearning modules, articles, guidelines, simulations and more
- Ensures healthcare workers remain compliant with the national [Sepsis Clinical Care Standard](#)

Using Filters to Navigate Resources

Audience Filter

- Filters resources by professional roles including nursing, medical, allied health, and primary health.

Learning Domain Filter

- Categorises resources into 4 main learning domains to align with the [Paediatric Sepsis Education Framework](#):
 1. Recognising Paediatric Sepsis,
 2. Paediatric Sepsis Pathway,
 3. Management of Paediatric Sepsis,
 4. Family experience, outcomes and support.

These domains are considered the core units within paediatric sepsis education.

Modality of Learning Filter

- Distinguishes format of educational resources such as webinars, eLearning modules, FAQ, information sheets, simulations and guidelines for diverse training needs.

Length Summary Filter

- Length filters videos and webinars by time to watch or complete training or other resources as self-paced.

Sepsis Clinical Care Standard Filter

- Care Standard filter aligns learning and education resources with national care standard guidelines.

Audience

- Allied Health
- Consumers
- Doctors
- Nurses

Paediatric Emergency Education Program (PEEP) - Module 2 Fever	🔗	A case-based learning program for clinicians covering the most common paediatric emergency scenarios.	Self-paced	eLearning	✓			✓			

Clear Filters Button

Click the 'Clear Filters' button to reset all filters, this ensures you can start a new search with no selections applied

Search Button

Type a **keyword** into the search bar (e.g. consumer, digital pathway) and press **Enter** or select the **magnifying glass**. The table will filter to show resources that include your search term in the **Title or Description**.

Use the eraser icon to clear your search and start again.

Direct Access via Links

Clickable link icon open resources in new tabs, ensuring easy access without disrupting navigation.

Detailed Resource Descriptions

Descriptions summarise learning objectives and content for quick suitability assessment.

Learning Modality and Standards

Resources indicate learning format and alignment with Sepsis Clinical Care Standard using visual indicators.

Further Support

- After reviewing the resources available on the [Education Catalogue](#), if you or your facility requires further support with paediatric sepsis education, complete the [Referral to QPSP for Clinician or Service Support](#)

- Join the Paediatric Sepsis Advocacy Network ([PSAN](#))

Supported by the QPSP team, the PSAN is a state-wide virtual network of clinicians committed to reducing the impact of sepsis on Queensland children and families. PSAN provides a space to share education, discuss pathway implementation, and collaborate on paediatric sepsis initiatives.

The is accessible to all Queensland Health staff. External advocates can join by emailing your request to paediatricsepsis@health.qld.gov.au

- Email paediatricsepsis@health.qld.gov.au
