## Take the Antibiotic Resistance Fighter Pledge

I will not ask for antibiotics for colds and the flu as they have no effect on viruses

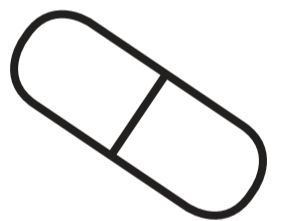

I understand that antibiotics will not help me recover faster from a viral infection

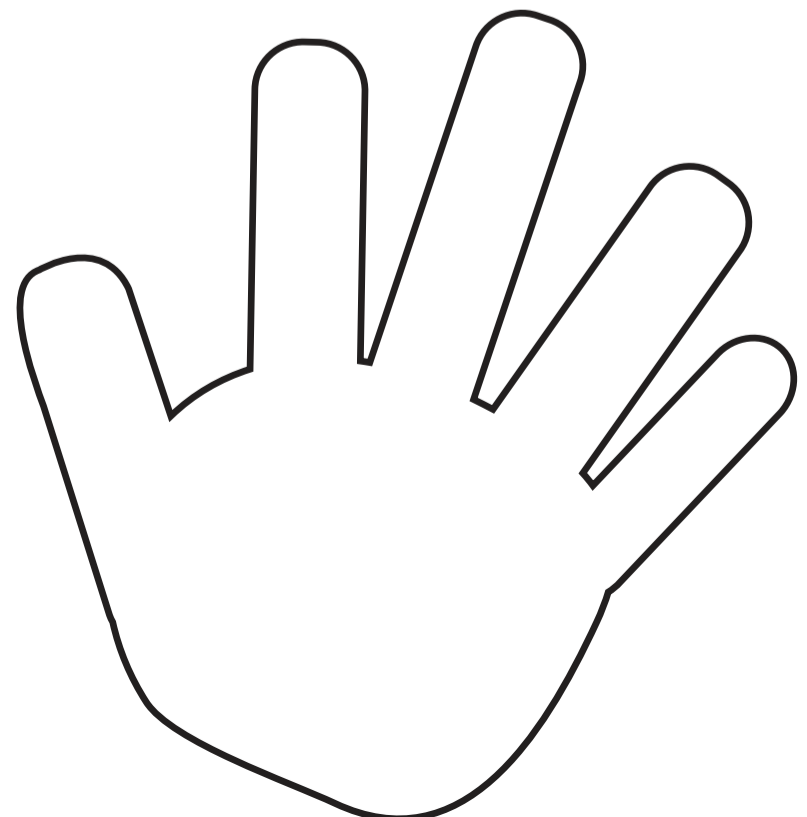

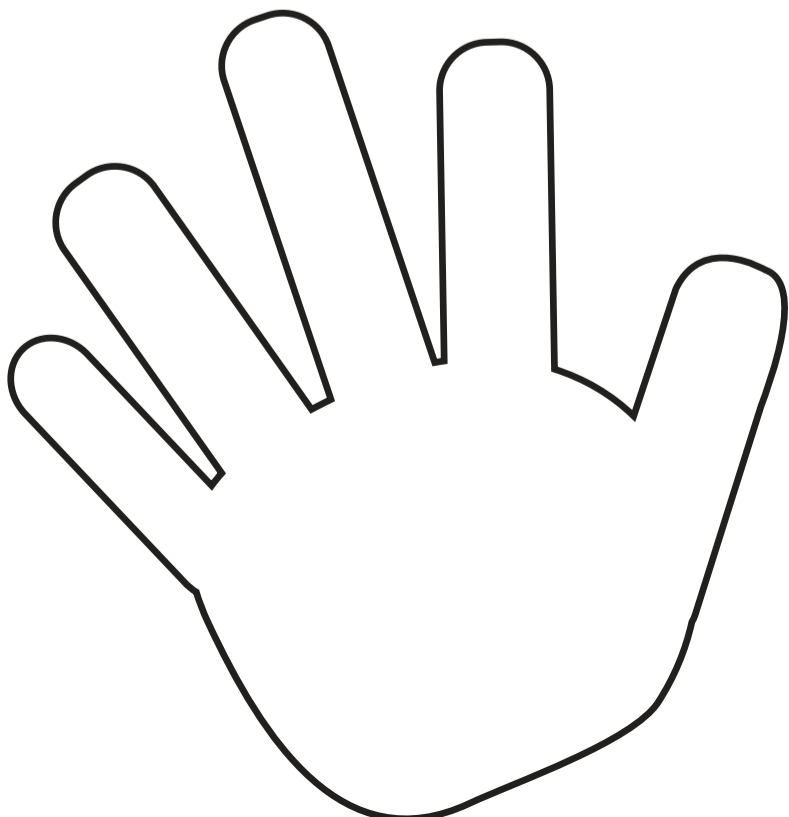

I will only take antibiotics in the way they have been prescribed

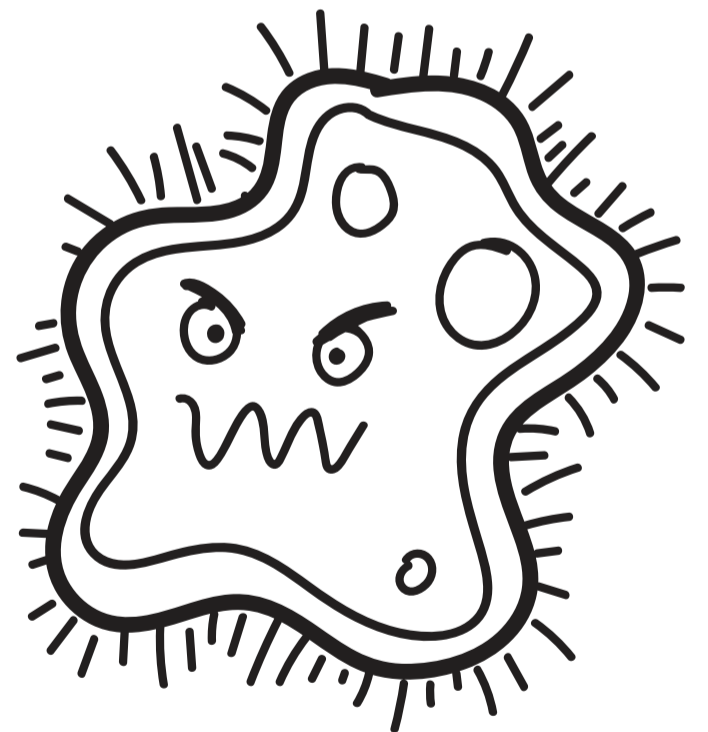

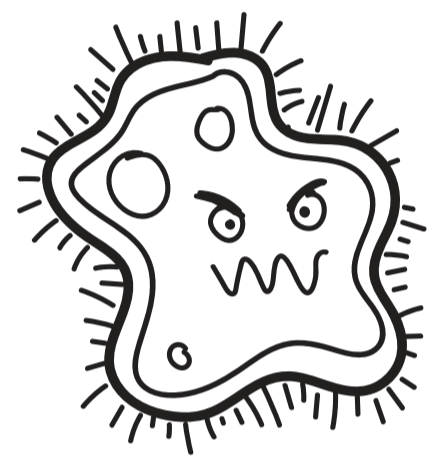

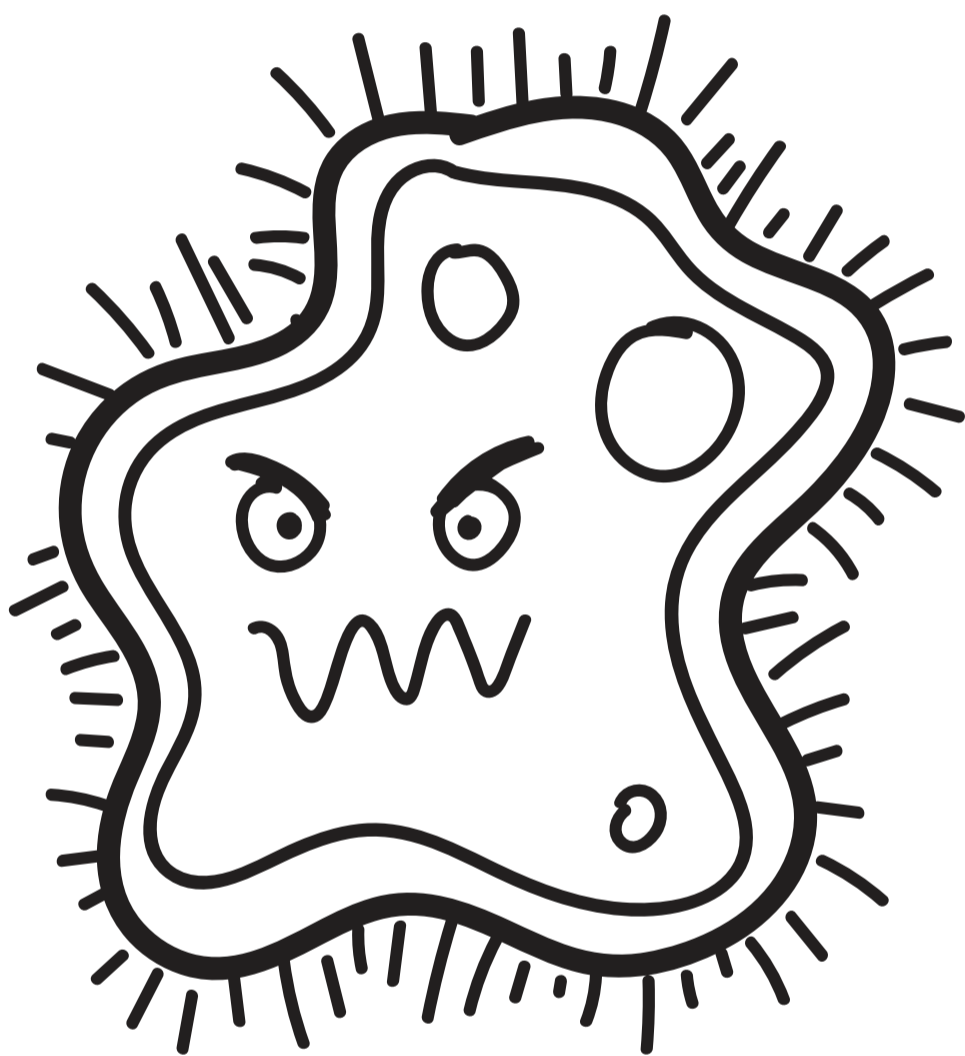

I understand that it is possible to pass on antibiotic resistant bacteria to others

I will make a greater effort to prevent the spread of germs by practising good hygiene

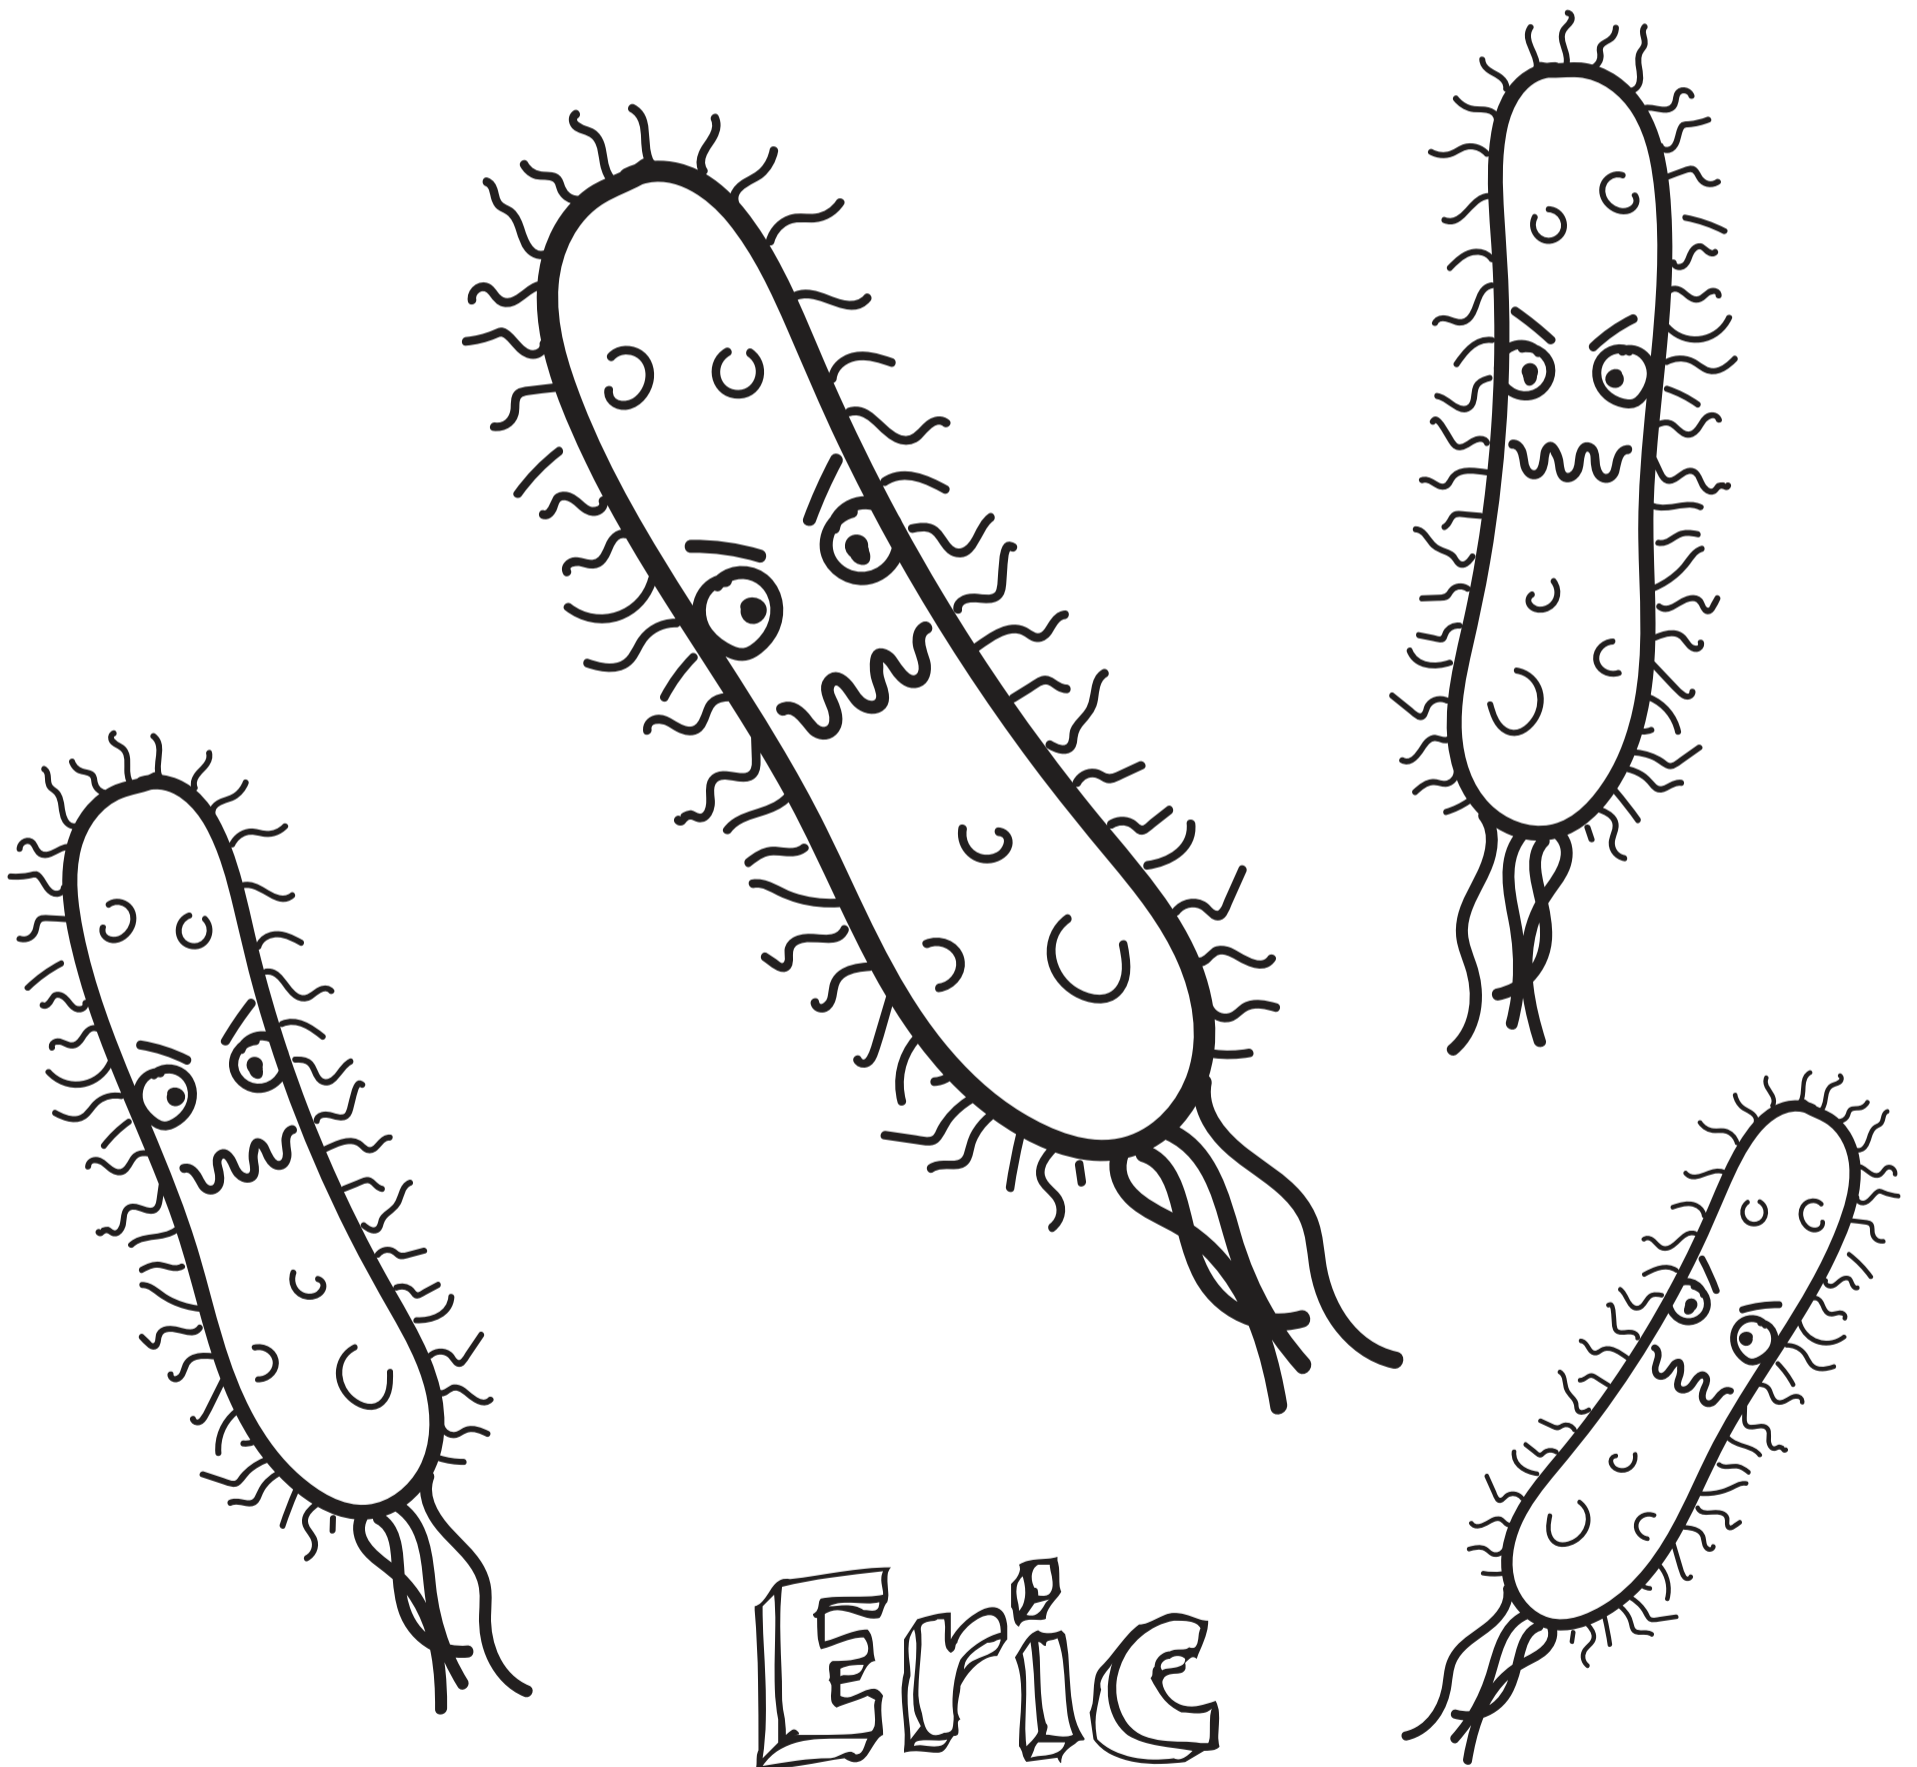

**Antibiotics are a precious resource  
and must be handled with care**

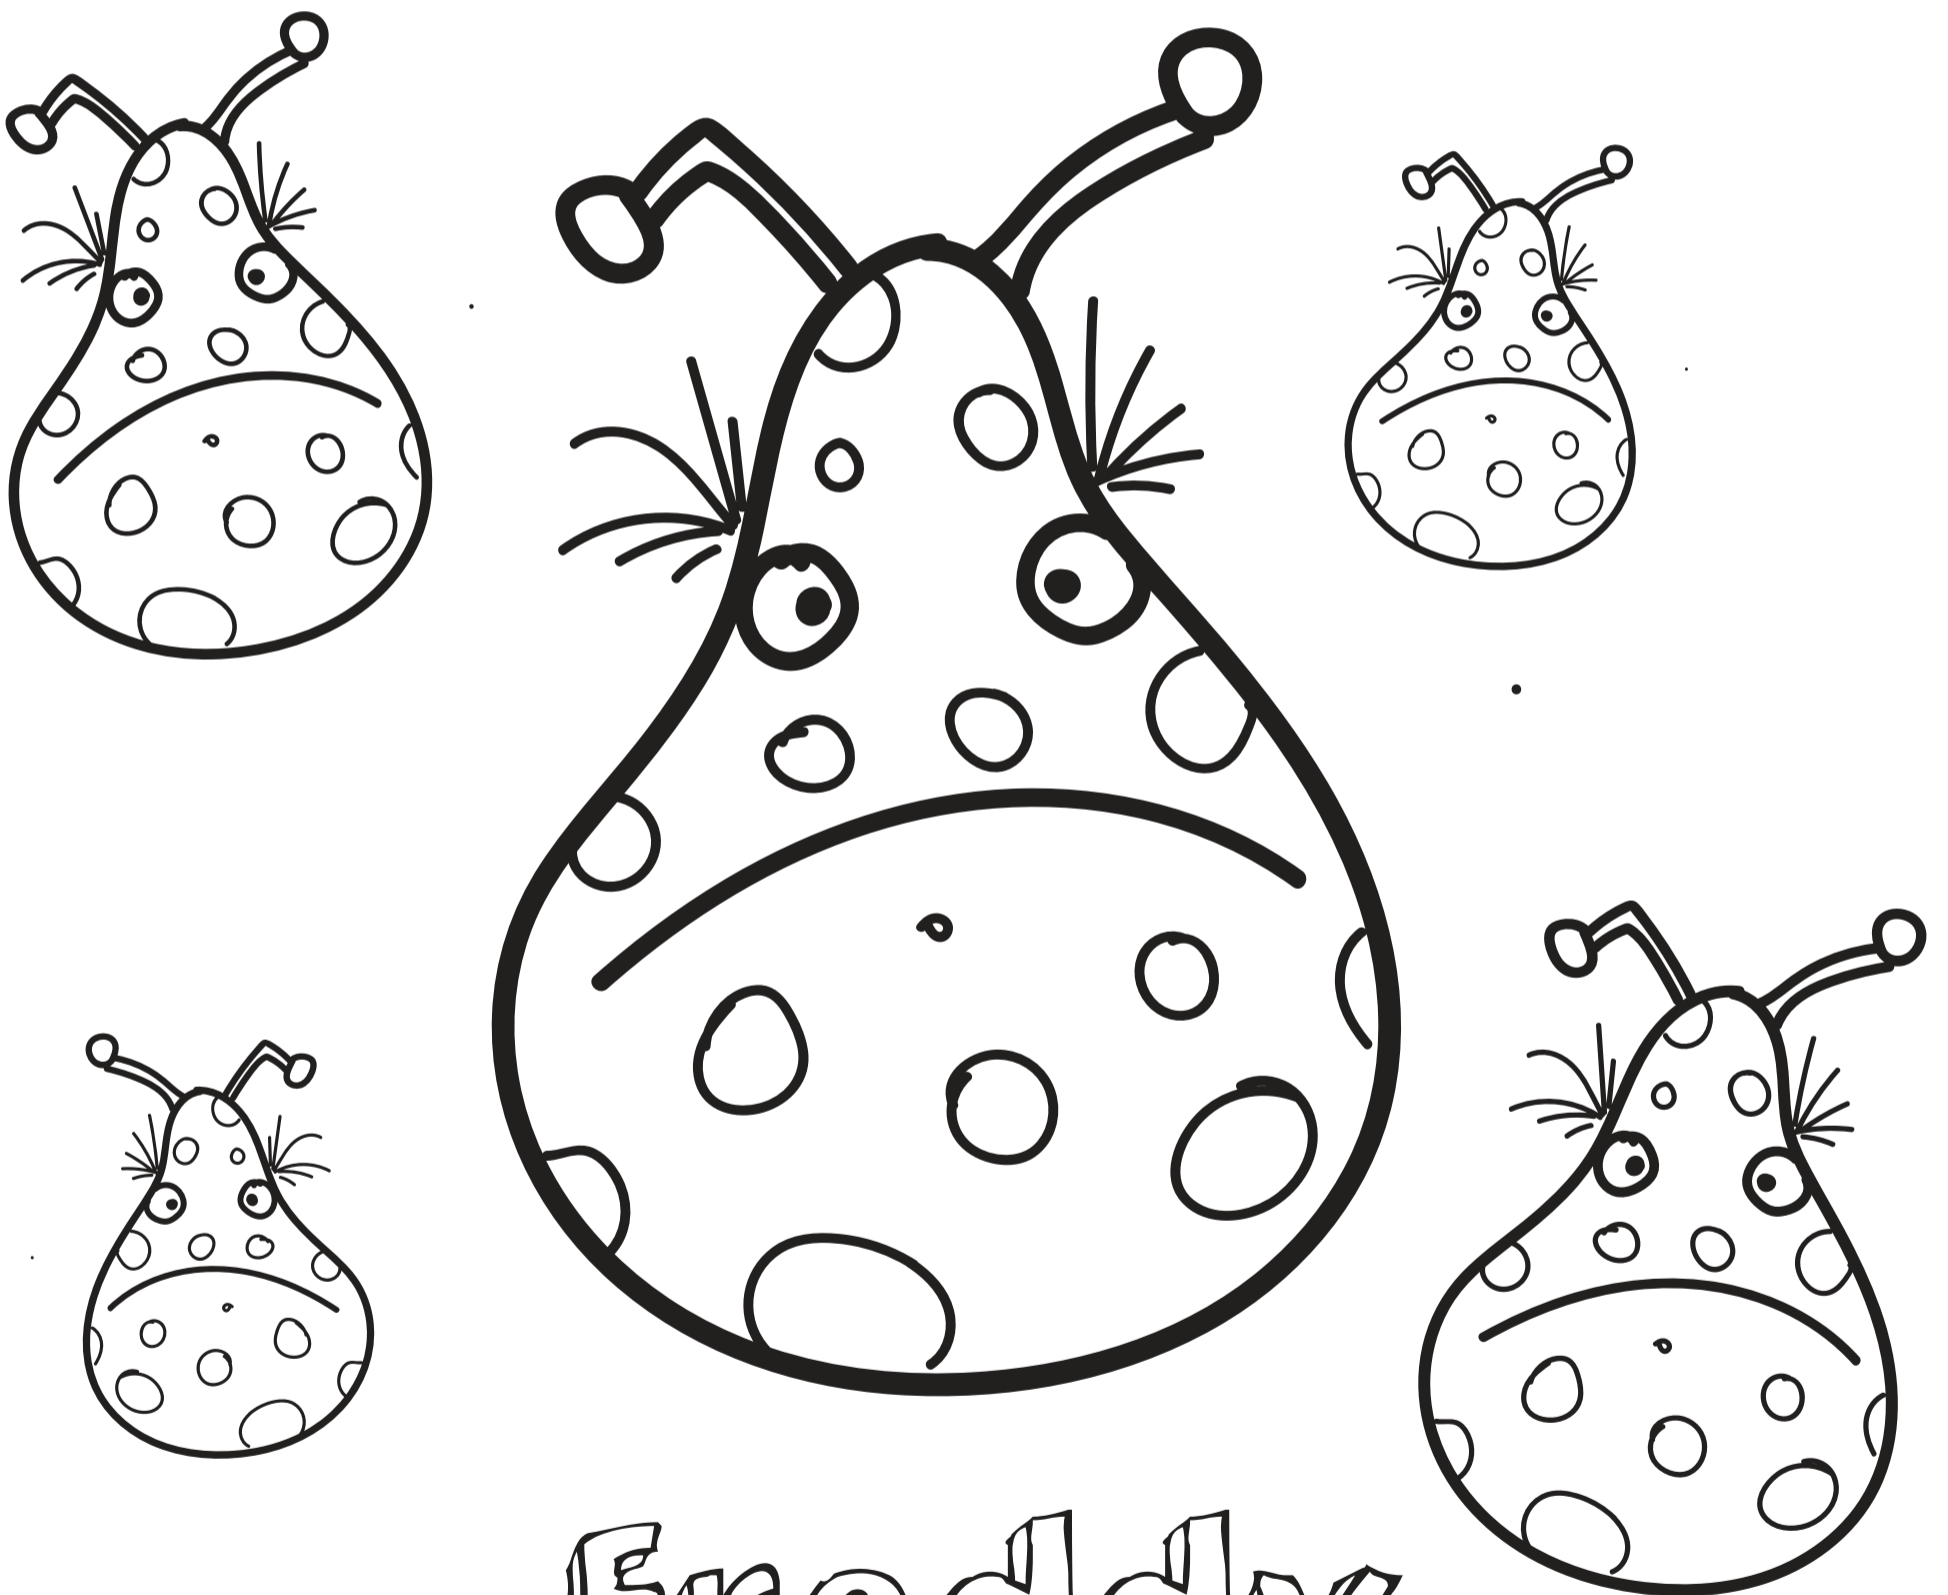

**Sammy**  
**Salmonella**

**Always take the full prescription of  
antibiotics, even if you feel better**

**Eric**  
**E. coli**

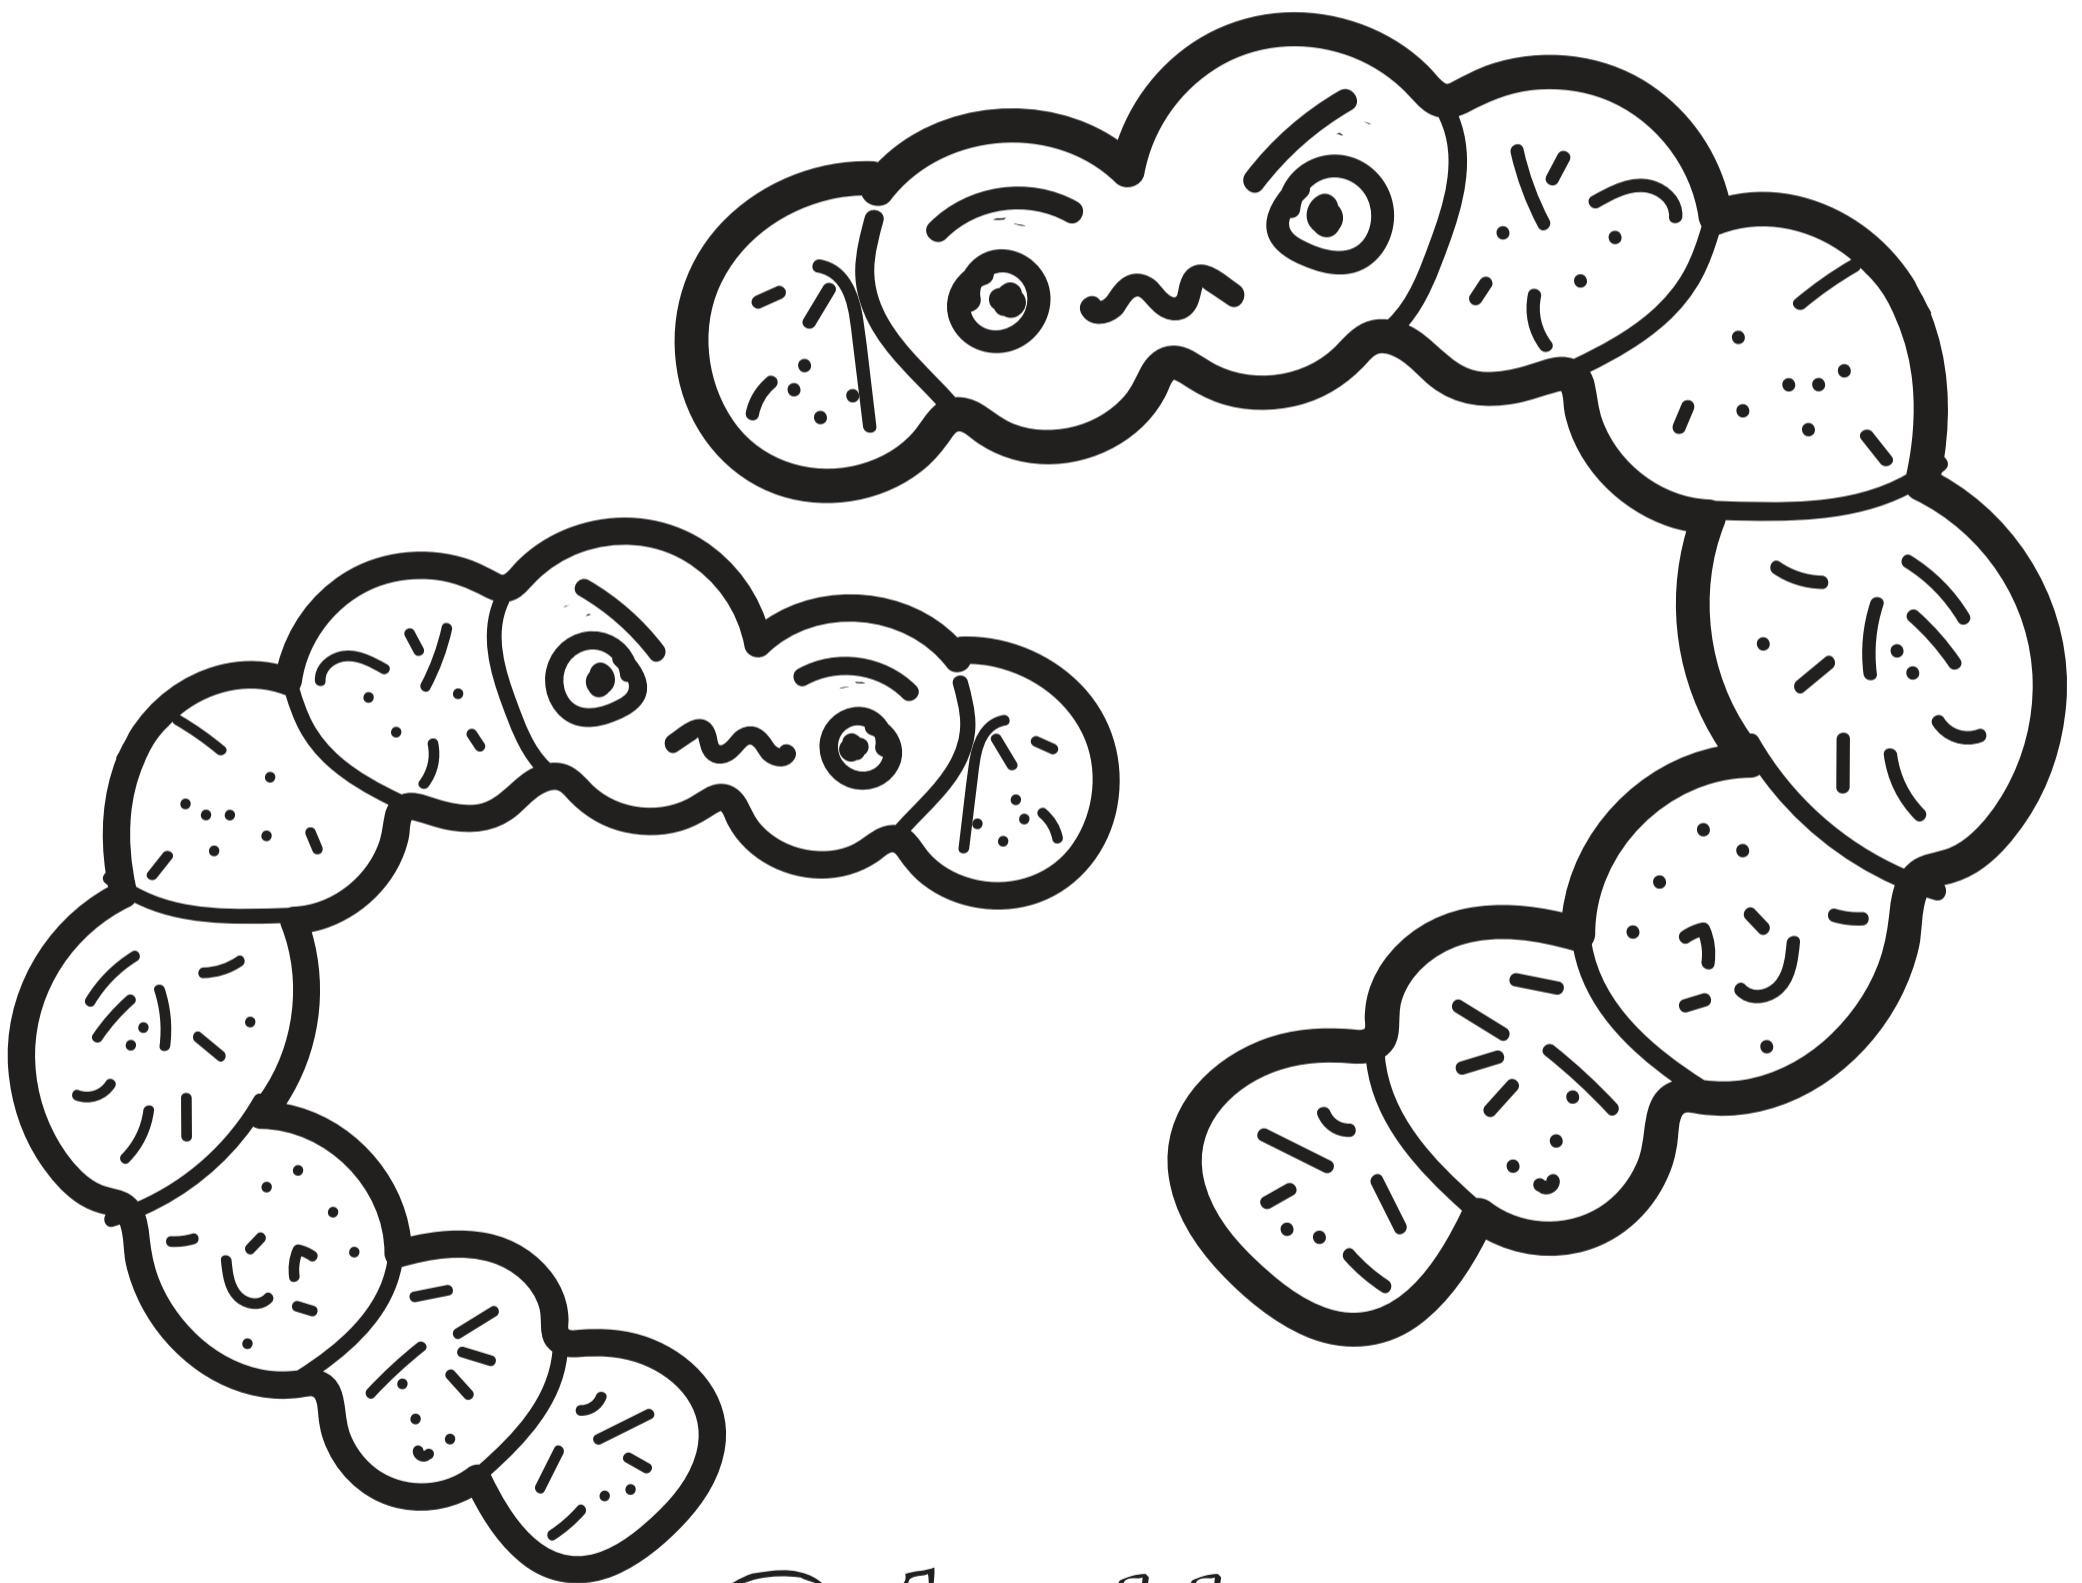

**Only take antibiotics  
if your doctor tells you**

**Freddy**  
**the FLU virus**

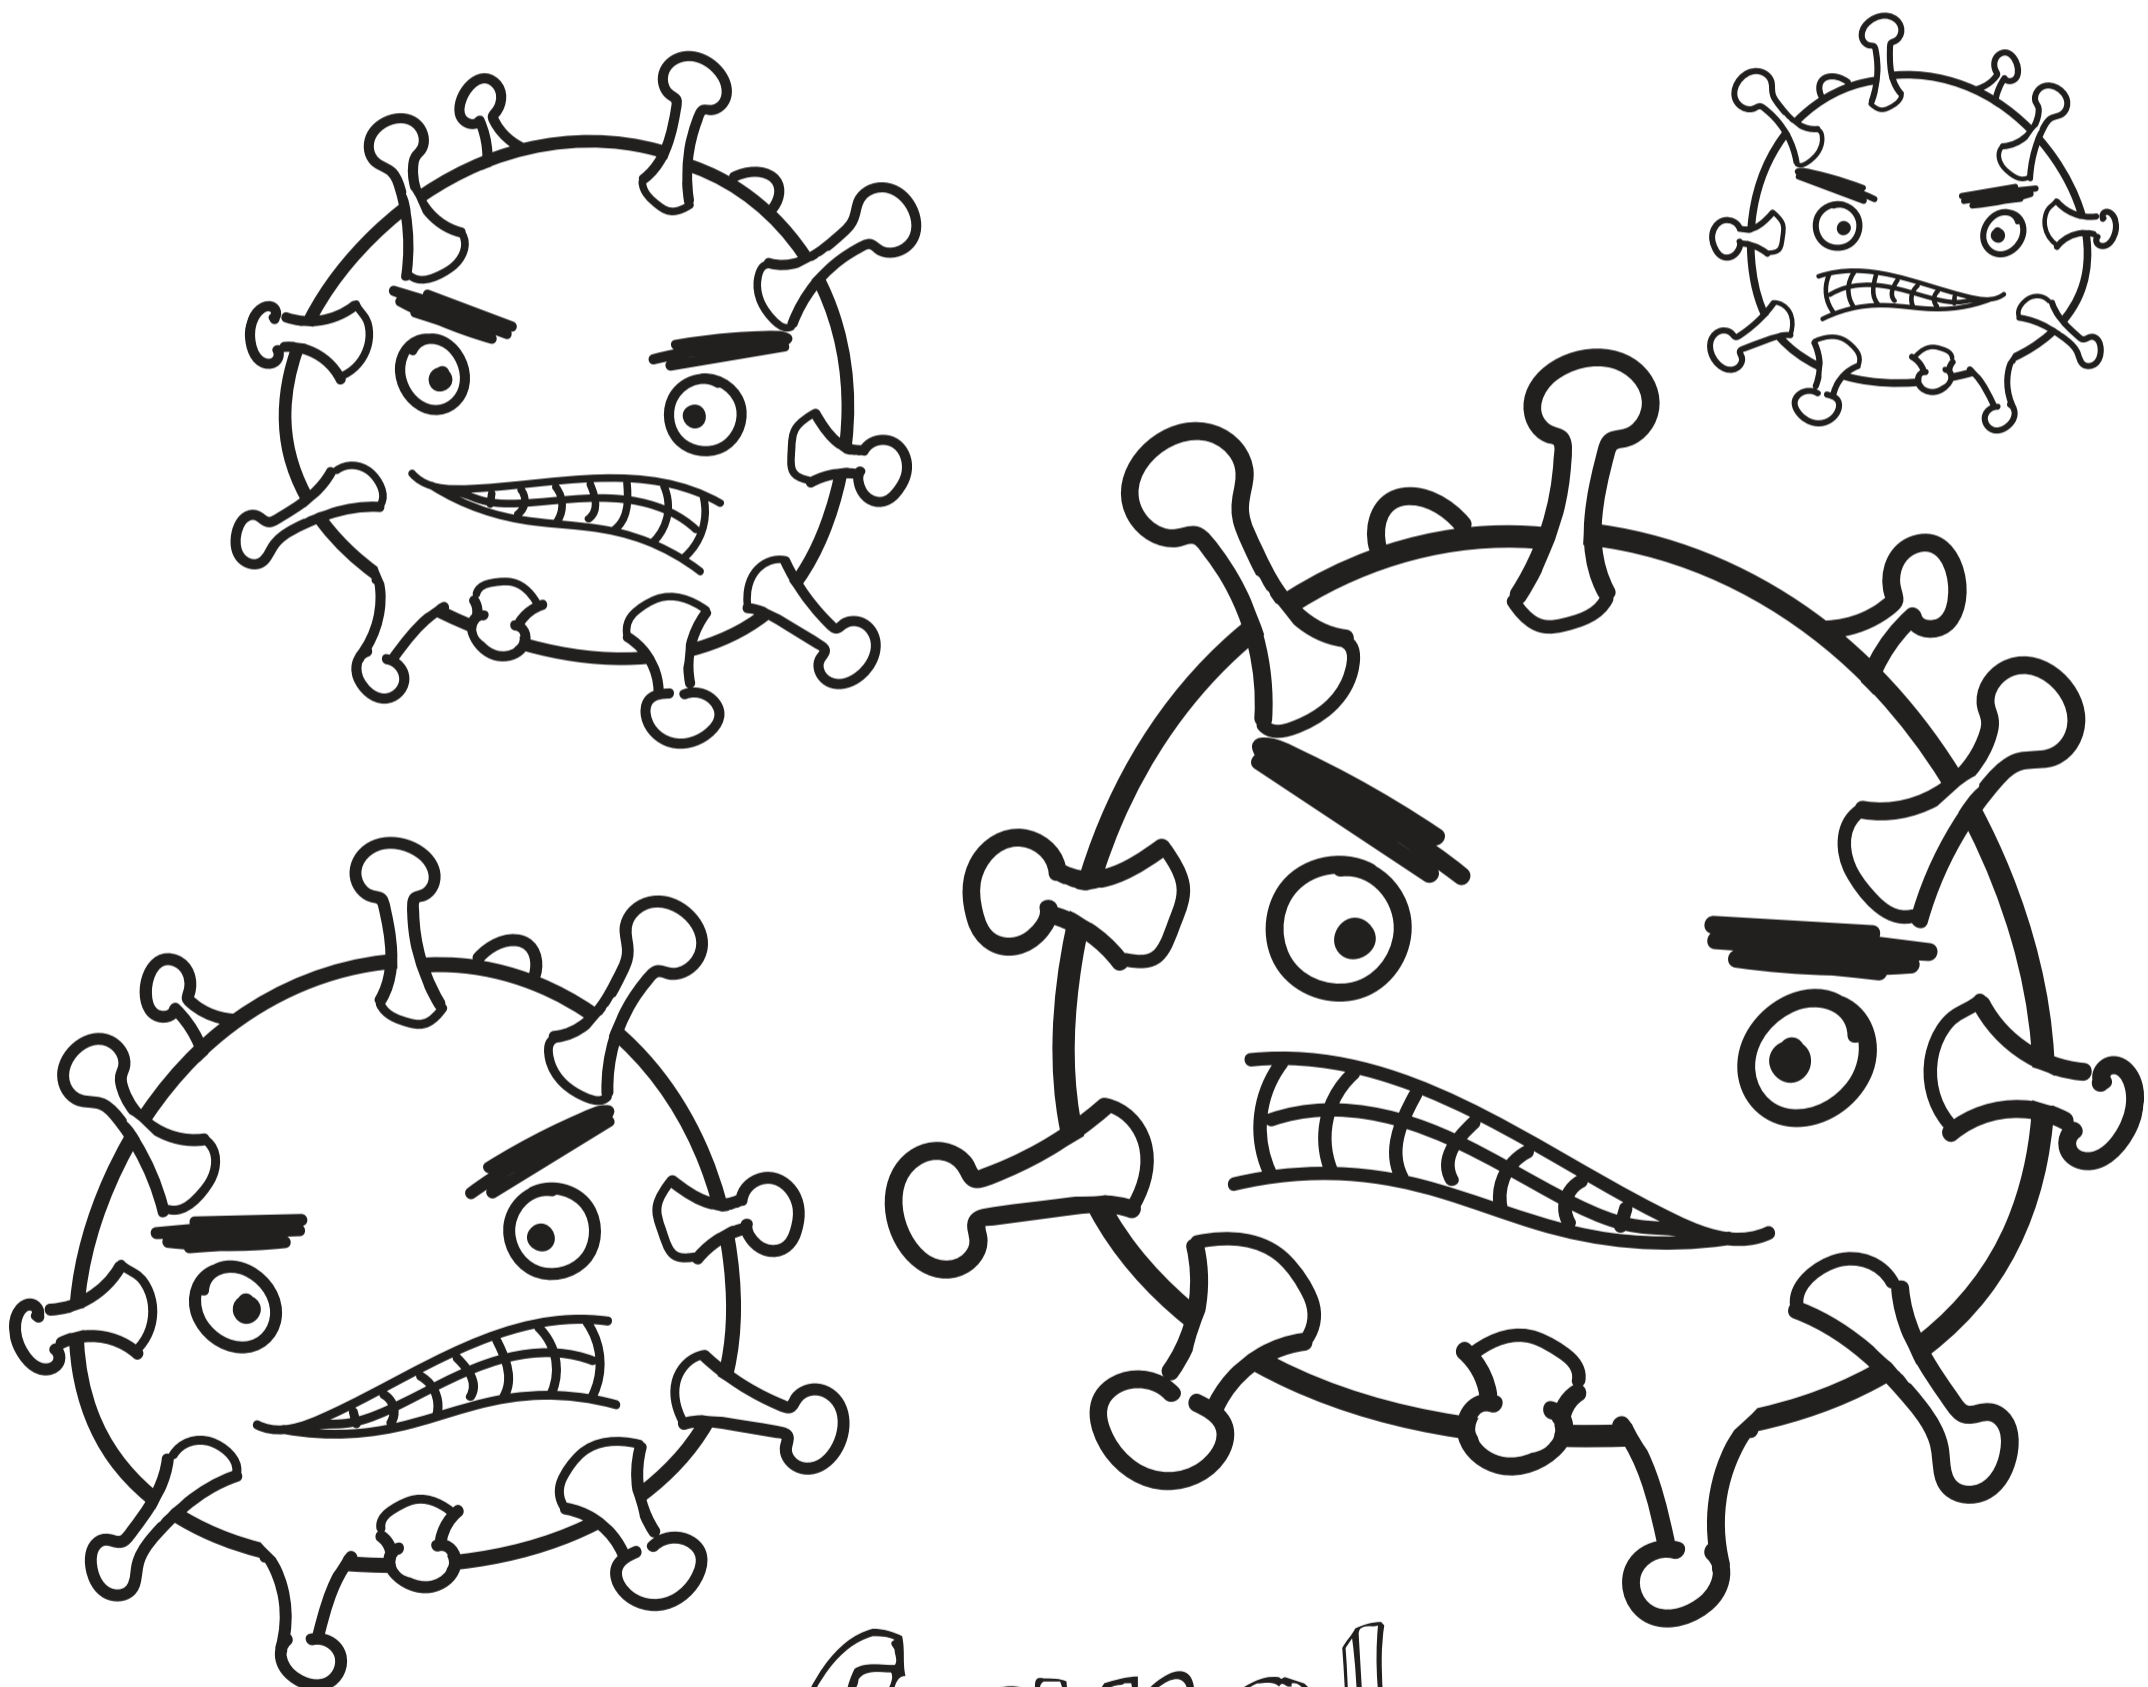

**Overuse and misuse of antibiotics is making  
bacteria infections harder to treat**

Stella

Streptococcus

**Did you know antibiotics do not kill viruses  
so won't help you with a cold or flu**

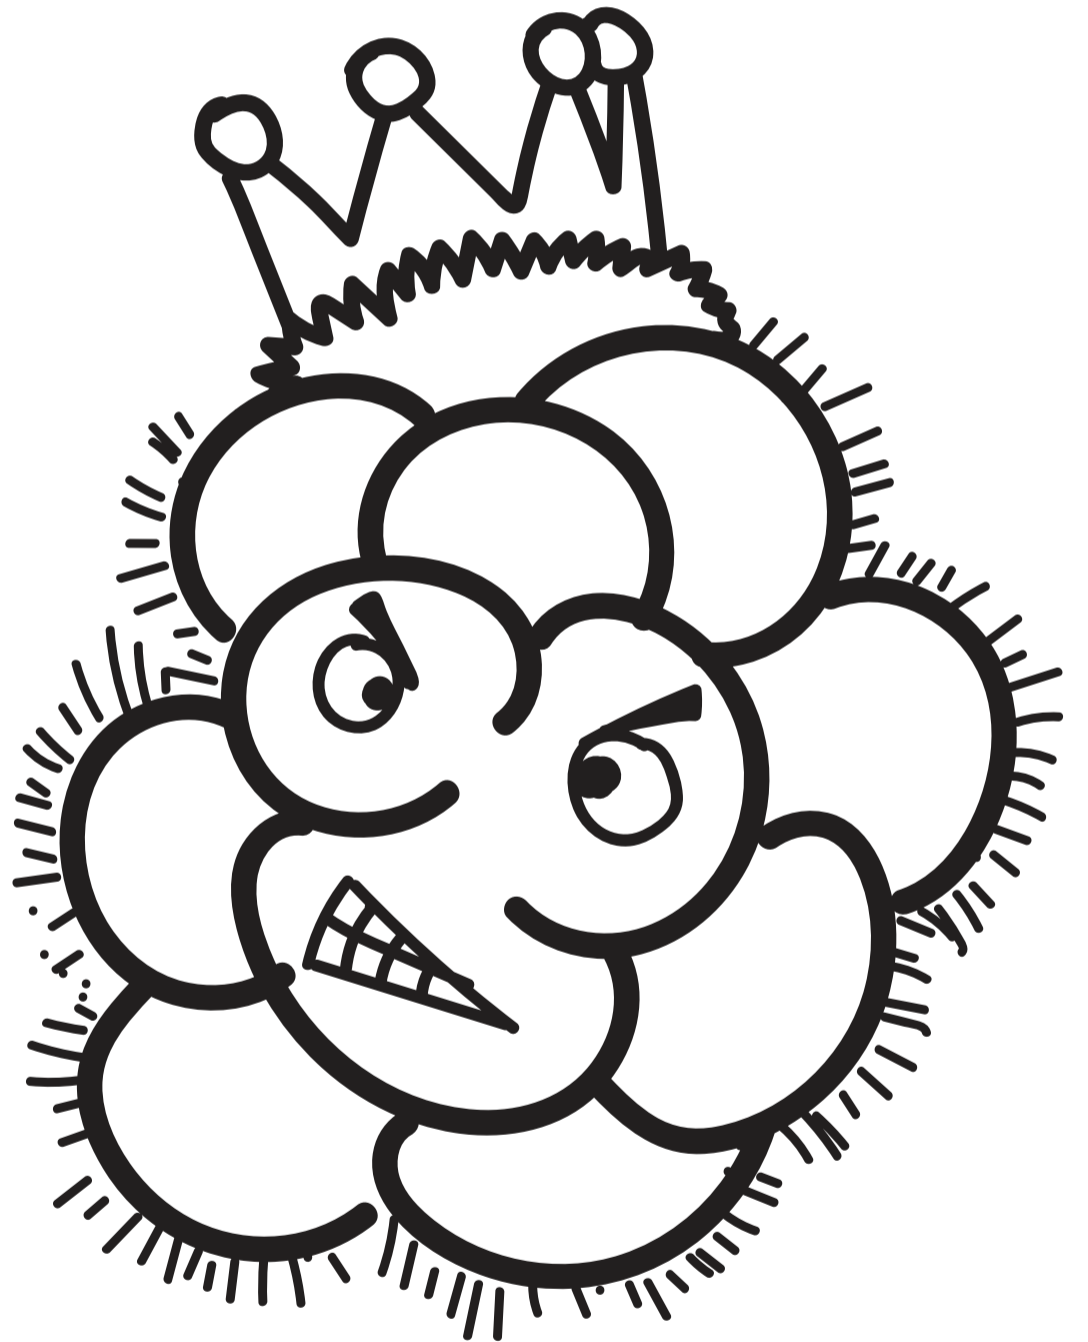

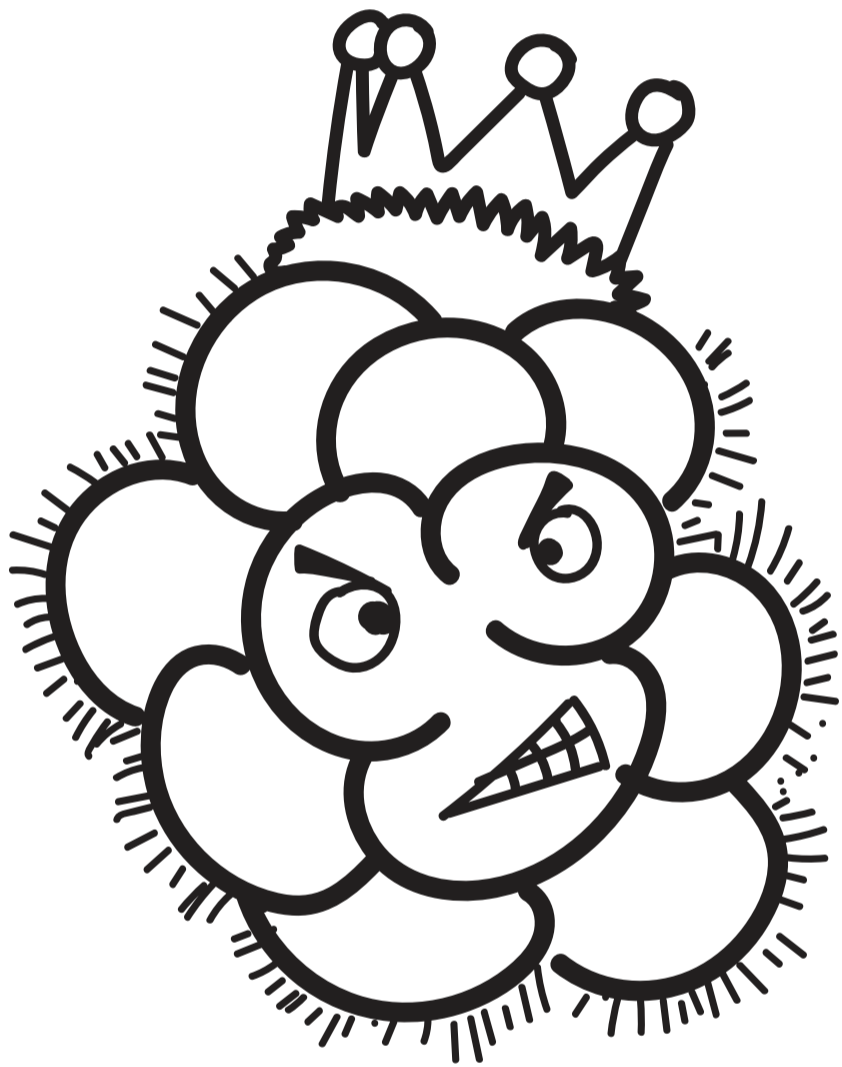

Carol

the cold virus

**Never share or use leftover antibiotics**

**Marcia**

**the MRSA superbug**
