

Spotlight on concussion rehabilitation

A/Prof Karen Barlow, Prof Keith Yeates

This workshop will provide an overview of concussion and post-concussion syndrome in children. The workshop will cover the following topics:

- Knowledge itself is power: Getting the right information to families after a concussion
- The development of Paediatric Head Injury Guidelines in Australia
- Sensorimotor integration following a concussion
- Aerobic exercise as a treatment after a concussion
- Returning to School after a concussion: The role of neuropsychology testing
- Cognitive behavioural therapy in Persistent Post-Concussion Syndrome
- Medical treatment in Persistent Post-Concussion Syndrome
