

CHEAT SHEET

How to save favourite diagnoses and problems

ATTENTION PLEASE

All clinical staff

Read on...

When searching for a diagnosis or problem you use frequently, consider adding it to your favourites so you don't have to manually search the catalogue next time you apply it to another patient.

You can organise your favourites to suit your area, workflow or personal preference to make them easier to locate and save you time.

ieMR specific clinical terms you need to know:

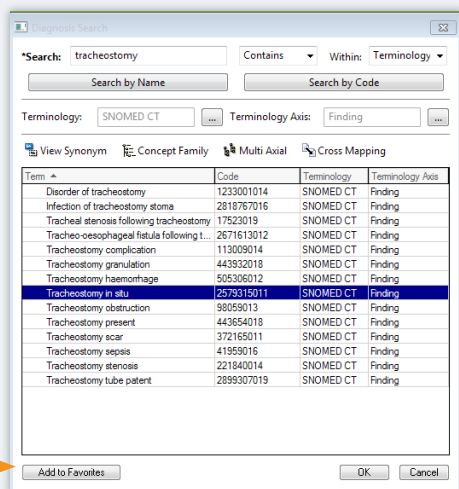

In the global ieMR system, some clinical terms are defined differently to what you may be used to:

- The ieMR categorises a **'problem'** as chronic and applies it to all encounters
- The ieMR categorises a **'diagnosis'** as related to a specific encounter only

How to add a favourite diagnosis or problem

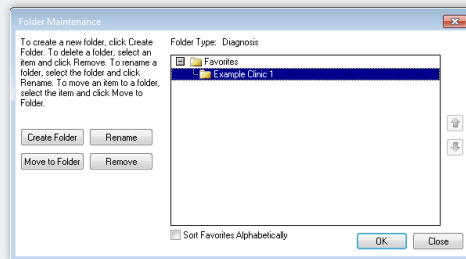

1

When searching for a diagnosis or problem, select the one you wish to add and click 'Add to Favorites'

2

Create a folder to file your favourite in and click 'OK'

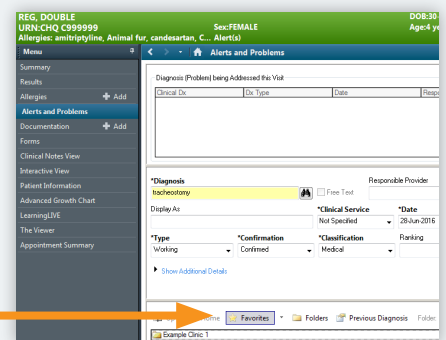

You can create multiple folders and organise your favourites to suit your area, workflow or personal preference

3

To find your saved favourites, go to the bottom panel and click the 'Favorites' tab

You can also click 'Folders' for common diagnoses for your specialty

SAFETY ALERT

Do add diagnoses and problems to your favourites as you go

Do Not set up your favourite diagnoses or problems in one go by adding them all to one patient
