ieMR Note Templates

Fact Sheet

Overview

As part of the Doctor Workflow Project the *Note Templates* within *Documentation* have been enhanced. The *Current Templates* will be decommissioned, this change impacts **all staff**. Please see below the *Future Note Templates* that are part of the change.

Note Templates

Current	Future
Admission Note Adult Admission Note Paediatric	Admission Note
ED Note	ED Initial Note ED Review Note
Clinic Note	Clinic Note Clinic Note – Brief
Consultant Ward Round Consultant Ward Round – Brief Consultant Ward Round – Paediatric	Ward Round Ward Round Brief Surgeon Ward Round
Progress Note - Blank	Freetext Note

- Paediatric and Adult templates have been consolidated
- If any favourite *Note Templates* are currently set up that will be decommissioned e.g. *Progress Note - Blank*, this will no longer be available.
- It is recommended to change the *Note Template Filter* to *All* if set to *Favorites*. This will show all *Note Templates* and allow any new *Note Templates* to be saved as a *favourite*.

The screenshot shows the 'Note Type List Filter' dropdown set to 'All'. Below it, the '*Type:' dropdown is set to 'Progress Notes Emergency'. On the right, the 'Note Templates' list shows two tabs: 'All (23)' and 'Favorites (1)'. The 'All (23)' tab is active, and the list contains one entry: 'Admission Note' with a star icon next to it, indicating it is a favorite.
