

Frankly, I don't care if I accidentally document against the incorrect ieMR encounter

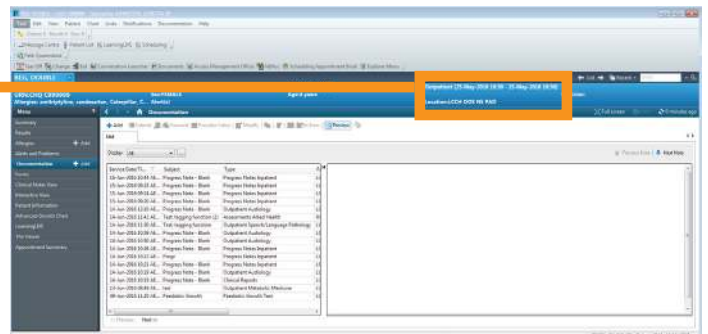

**SAID NO ONE EVER**

Did you know it's super important (and super easy) to double check you're in the correct encounter before documenting in the ieMR? Here's how:

The info you need is right here:

**Inpatient [12-Jun-2015 15:28 - 12-Jun-2015 15:32]**  
**Location:LCCH MB 10 10A**

- 1 Check encounter type**  
*Does this match the episode of care?*
- 2 Check CHQ location code**  
*Is it displaying the correct facility?  
Is it displaying the correct area within the facility?*

**WANT MORE INFO OR HOT TIPS LIKE THIS?  
CONTACT THE ieMR TEAM!**
