Advanced Growth Chart - Documenting Post Menstrual Age (PMA)

Medications Management/Care Delivery

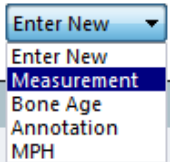

Quick reference guide

How to Document Post Menstrual Age (PMA) in Advanced Growth Chart

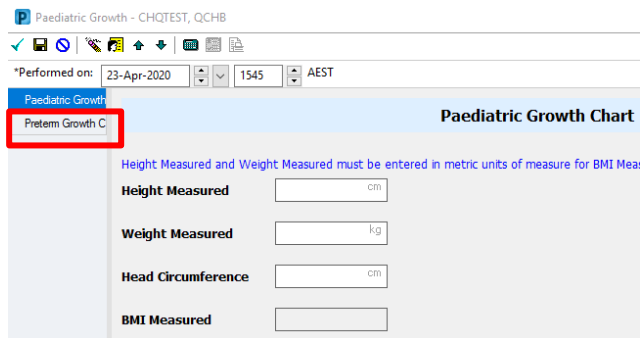

1. In Menu click on *Advanced Growth Chart* tab
2. Select *Enter New* button

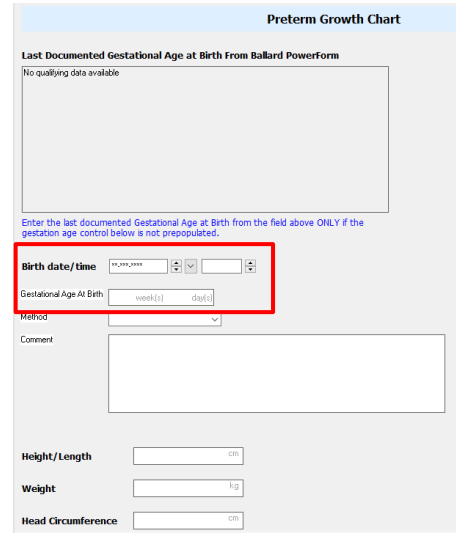

3. Select *Measurement* from the drop down menu

4. In the *Paediatric Growth* window, select *Preterm Growth Chart* (partially hidden tab on left hand side)

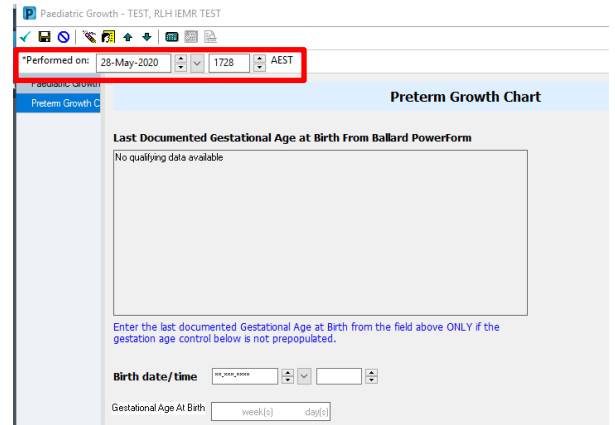

5. Complete the following fields on the *Preterm Growth Chart*:
 - a. *Birth date/time* and
 - b. *Gestational Age At Birth*

6. Change the date and time in the *Performed on* field to match the Birth date/time

Note: This Performed on: date/time must be changed to drive key system safety functionality

7. Click on the *Green tick* to save the details (top left hand corner of the window)
