Care Delivery

Quick reference guide

1. Navigate to **Orders**.
2. Select **+Add**.
3. In the search bar enter **Urine Dipstick** and select the appropriate order sentence.

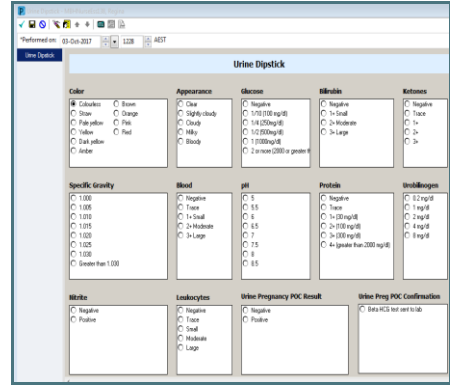

4. Click **Done**.

Note: For patients requiring frequent testing throughout the day select the “PRN” order sentence. This will ensure that the task remains as a constant indicator on **CareCompass**.

5. Enter or Modify any order details in the **Order Entry Field/Scratch Pad**.
6. Select **Sign**.
7. Enter **password** and select **OK**.
8. Navigate to **CareCompass**.
9. Open the **activities** for the patient.
10. Select **Urine Dipstick POC** order and click document.

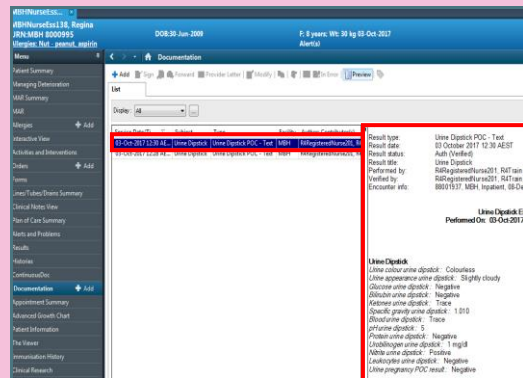

11. Enter the details into the **PowerForm**.

12. Sign

Note: Once the results are signed for they can be found in **Documentation and Results**.
