## COVID-19 ED Precaution Triage Flag

### Quick reference guide

A mandatory COVID-19 Precautions flag has been added to the Triage Assessment Powerform within the ieMR. The flag will allow for the appropriate management and streaming of suspected or confirmed COVID-19 patients to be initiated as they arrive in ED.

### Triage Assessment Powerform

1. Login to the FirstNet application
2. Perform a Quick Registration as per current process
3. The Triage Assessment powerform will launch

4. Complete the mandatory COVID-19 precautions flag

COVID-19 precautions  Yes  No

Select **yes** for:

- Suspected or probable COVID-19 patients based on history and/or clinical presentation at the point of triage
- Confirmed (known) COVID-19 patients
- Patients who are unable to provide history (e.g. unconscious) but clinical presentation is **suspicious** for COVID-19 (e.g. respiratory distress with fever and cough)

Select **no** for:

- Patients who are not suspected/probable/confirmed of COVID-19 based on history and/or clinical presentation at the point of triage
  - Patients who are unable to provide history (e.g. unconscious) but clinical presentation is **not suggestive** of COVID-19 (e.g. multi-trauma)
5. Complete remaining mandatory fields and other clinical documentation as appropriate
  6. Select **Sign** to complete the form

### COVID-19 Precaution Event Icon Display:

Selection of **yes** will result in the COVID-19 Precaution event  icon displaying in the following FirstNet locations:

1. Info Column on the ED Tracking List

PRN	Info	Admit/Depart	Tea SMO TC	NR	MLab	Rad	Clinical	Comments	Nursing	Comme	Bed M
											
	Time	Event	Status	Duration(HR:MM)	User						
	17-Apr-2020 12:13	COVID-19 Precautions	Request	0:00	SYSTEM, SYSTEM						

2. Patient banner on ED Launch Point

A,04	2	PAHTESTONC, PAHO...	PAH 9012550	00:00	
		01/01/20 100y F			
A,12	2	MSHHSTEST, OPTIMS...	PAH 802165	COVID-19 Precautions	
		23/03/50 70y M			

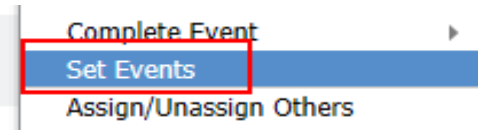

### Manually Remove COVID-19 ED Precaution Event Icon:

If required, the COVID-19 ED Precaution event icon can be manually removed if patient is no longer suspected of COVID-19 after comprehensive clinical assessment

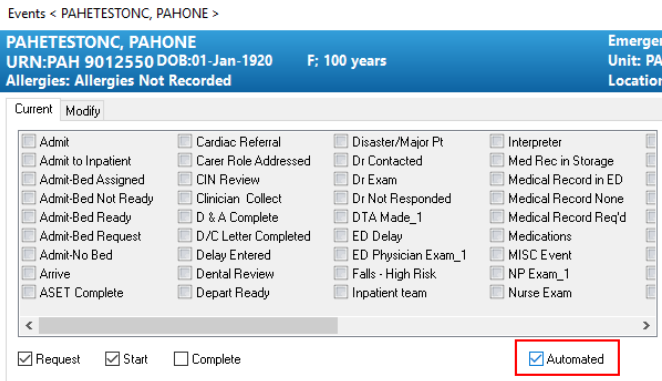

1. Open the Set Events window
- ED Tracking List – Select Set Events icon

- ED Launch Point – Right click menu

2. Select the **Automated** tick box to display the event

3. Locate the **COVID-19 ED Precaution** event and mark the status as **Complete**

Time	Event	Type	Status	User
17-Apr-2020 12:17:55	COVID-19 Precautic Info		Complete	SMYTH, NICOLE RN

A dropdown menu is open for the 'Status' column of the 'COVID-19 Precautic Info' event. The menu options are: Complete, Request, Start, Complete, Cancel, Collected, InLab. The 'Complete' option is highlighted with a red box.

4. Select **OK**
5. The **COVID-19 ED Precaution** event icon will no longer display on the ED Tracking List and ED Launch Point Views
