

Interactive view: comments and flagged comments

Care Delivery

Quick reference guide

When inputting data into **Field Cells** in **Interactive View** (or **iView**), you can also add a comment to that line of data. If it is of particular importance, you can add a flagged comment which will show up on the **Patient Summary Page**. This is of particular use when conducting the clinical handover.

		15-Sep-2015	
		9:29 AEST	9:25 AEST
Vital Signs			
Temperature oral	deg C		37.2
Temperature tympanic	deg C		37.2
Peripheral pulse rate	bpm		80
Heart rate monitored	bpm		80
Respiratory rate	brpm		40 !
Respiratory distress			Normal
SBP/DBP Cuff	mmHg		120/80
Mean arterial pressure cuff	mmHg		93.333333

Cell

Data

Adding a Comment

1. Right click on the data that you'd like to add a comment to.
2. Select **add comment**.
3. Type in your note and finalise it by clicking **sign** .
4. It will show as a black triangle  in the top right corner of the **data cell**.

		15-Sep-2015	
		15:00 AEST	11:21 AEST
Vital Signs			
Temperature oral	deg C		37.2
Temperature tympanic	deg C		37.2
Peripheral pulse rate	bpm		In Error
Heart rate monitored	bpm		80
Respiratory rate	brpm		40
Respiratory distress			Moderate
SBP/DBP Cuff	mmHg		120/80
Mean arterial pressure cuff	mmHg		93.333333

Data with added comment indicated with black triangle

Note: To view the comment right click and select **View Comments....** OR hover over the black triangle.

Adding a Flagged Comment

If you'd like the comment to show on the **Patient Summary** page in the **Patient Chart** for handover, you will need to **Flag with comment**.

1. Right click on the data that you'd like to flag and add a comment to.
2. Select **Flag with comment**.
3. Type in your note and finalise it by clicking **sign** .

Data with a **Flag with comment** will show a yellow flag  to the left of your data.

		15-Sep-2015	
		11:16 AEST	11:01 AEST
Vital Signs			
Temperature oral	deg C		37.2
Temperature tympanic	deg C		37.2
Peripheral pulse rate	bpm		80
Heart rate monitored	bpm		80
Respiratory rate	brpm		40 !
Respiratory distress			Mo... 
SBP/DBP Cuff	mmHg		120/80
Mean arterial pressure cuff	mmHg		93.333333

Note: To view the **Flag with comment**, right click and select **View Flag Comments** OR hover over the black triangle.

The flagged comment also shows in the **Patient Summary** screen of the **Patient Medical Record** in the **Flagged Events** section.

The data along with the flag comment is now displayed here

Note: It is recommended that the author who added the flag with comment also un-flags this as clinically appropriate, to ensure the Patient Summary Page remains up-to-date.

Removing a Flag or Flagged Comment

If a flag or flagged comment is decided to no longer be of clinical relevance, it can be removed through the **Interactive View** tab.

1. Right click on the flagged field.
2. Select **Unflag** or **Unflag with Comment**.

The flagged event has now been removed from the **Patient Summary** page.
