

## Interactive view – setting and viewing an estimated discharge date (EDD)

### Care Delivery

#### Quick reference guide

#### To Set an Estimated Discharge Date

1. Open the patient's chart and select **Interactive View** from the **Menu**.
2. Within Paediatric Quick View band, click on the tab named **Estimated Discharge Date**.

3. Double click in the cell next to the field named **Estimated Discharge Date** to enter the patient's EDD .
4. To click up or down to enter the date, use the + and – arrows on the keyboard or use the  button to select a date from a calendar view.
5. Select **sign**  to finalise the documentation.

#### Viewing the Estimated Discharge Date

##### Nursing Staff

The EDD will display in **CareCompass** under the heading **Estimated Discharge Date**.

Care Team	Estimat...	Activities
--	10/...	10

*EDD showing in Estimated Discharge Date column.*

1. To view the full details of the EDD hover the mouse over the date displayed under the **Estimated Discharge Date** banner.

Care Team	Estimat...
--	10/...
Display: Estimated discharge date 10/21/2015 Normal Range: -- Date/Time: 14:48 Today Status: Auth (Verified)	
--	--

**Note:** Due to programming, the date format is American and shows as MONTH/DAY/YEAR.

2. Navigate to the **Patient Summary** tab from the main **Menu**, click on **Discharge** tab.

Within the **Discharge Readiness** widget, you will see the EDD displayed (in DAY/MONTH/YEAR format).

LOS	Estimated D/C Date	DC Checklist	DC Order	Doc	Discharge Readiness	Pt Education
154:02:55	31/01/2018	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Review and Sign

##### Medical Staff

The EDD will only be visible in Interactive View within Paediatric Quick View.
