Interactive View – students' documentation

Quick reference guide

Students can complete documentation as permitted under their roles and student profiles. Usernames will reflect that they are students on the system. Results entered into **Interactive View (iView)** by students need to be authenticated by their Supervising Clinician.

Student completion of work

1. Enter the patient documentation into the relevant areas of **iView**
2. **Sign** the entry
3. When results are signed by a student in **iView**, the text in the cells will change to black with a symbol to the right
4. This will remain until results are authenticated by the supervising clinician

	23-Oct-2020 10:47 AEST	10:42 AEST	Unauth
4 Paediatric Falls Assessment			
Sleeping environment		Bed	
Psychological/cognitive impairment		No	
Impaired mobility		No	
Anaesthesia/surgery within last 48 hours		No	
Medical diagnosis		No	
Multiple medication usage		No	

	23-Oct-2020 10:50 AEST	10:42 AEST	Unauth
4 Paediatric Falls Assessment			
Sleeping environment		Bed	
Psychological/cognitive impairment		No	
Impaired mobility		No	
Anaesthesia/surgery within last 48 hours		No	
Medical diagnosis		No	
Multiple medication usage		No	

Note: It is recommended that the Student Clinician inform their supervisor of results requiring authentication

Authenticating Results of a Student Clinician

Note: It is the supervisor's responsibility to authenticate the results entered by the Student Clinician

1. An icon will appear in the **iView Toolbar** to indicate there are student clinician results to authenticate in the patient's medical record.

Interactive View Toolbar

1. Tick the **Unauth** box, this will show all unauthenticated results and will highlight them green

2. Hovering over the icon will show the hover window stating **Authenticate**
3. To authenticate results click on the icon

- The **Authenticate** window will open displaying all results entered by Student Clinicians for that patient

Item	Result	Date/Time	Provider	Authenticate
Paediatric Falls Assessment				
Multiple medication usage	No	23-Oct-2020 10:42 AEST	NAINBY, LAURA SAH	<input checked="" type="checkbox"/>
Medical diagnosis	No	23-Oct-2020 10:42 AEST	NAINBY, LAURA SAH	<input checked="" type="checkbox"/>
Anaesthesia/surgery within last 48 h	No	23-Oct-2020 10:42 AEST	NAINBY, LAURA SAH	<input checked="" type="checkbox"/>
Impaired mobility	No	23-Oct-2020 10:42 AEST	NAINBY, LAURA SAH	<input checked="" type="checkbox"/>
Psychological/cognitive impairment	No	23-Oct-2020 10:42 AEST	NAINBY, LAURA SAH	<input checked="" type="checkbox"/>
Sleeping environment	Bed	23-Oct-2020 10:42 AEST	NAINBY, LAURA SAH	<input checked="" type="checkbox"/>

- As the Supervising Clinician, carefully check and verify the results entered by the Student Clinician
- Uncheck any results that are not going to be authenticated

Note: All Student Clinician entries will appear, nursing, allied health and medical. Ensure you only authenticate those that belong to your student Clinician. This should be done as soon as practicable and before end of shift.

- Following checking of the results to be authenticated click Sign 
- The results will now appear as signed
