- ONC Carboplatin Hydration Paediatric
- ONC Ifosfamide Hydration Paediatric
- ONC Cisplatin POST-hydration Paediatric
- ONC Cisplatin PRE-hydration Paediatric
- ONC Ifosfamide POST-hydration (Hospital in the Home) Paediatric
- ONC Cyclophosphamide (NO Glucose) Hydration Paediatric
- ONC Ifosfamide (NO Glucose) Hydration Paediatric
- ONC Tumour Lysis Syndrome Prophylaxis Hydration Paediatric
- ONC Cyclophosphamide (< 1000 mg/m<sup>2</sup>/dose) Hydration Paediatric
- ONC Cyclophosphamide (1001 - 2499 mg/m<sup>2</sup>/dose) Hydration Paediatric
- ONC Cyclophosphamide (2500 - 5000 mg/m<sup>2</sup>/dose) Hydration Paediatric
- ONC Gemcitabine (SJM12 Adjuvant B Cycles ONLY) Hydration Paediatric
- ONC High-dose Methotrexate (125 mL/m<sup>2</sup>/hr) Hydration Paediatric
- ONC High-dose Methotrexate (200 mL/m<sup>2</sup>/hr) Hydration Paediatric
- ONC High-dose Methotrexate (125 mL/m<sup>2</sup>/hr, NO Glucose) Hydration Paediatric
- ONC High-dose Methotrexate (200 mL/m<sup>2</sup>/hr, NO Potassium) Hydration Paediatric
- ONC High-dose Methotrexate (125 mL/m<sup>2</sup>/hr, NO Glucose) Hydration Paediatric
- ONC High-dose Methotrexate (200 mL/m<sup>2</sup>/hr, NO Potassium) Hydration Paediatric
- ONC High-dose Methotrexate (1001 - 2499 mg/m<sup>2</sup>/dose, VAC/VC Cycles ONLY) Hydration Paediatric
- ONC High-dose Methotrexate (125 mL/m<sup>2</sup>/hr, NO Glucose or Potassium) Hydration Paediatric
- ONC High-dose Methotrexate (200 mL/m<sup>2</sup>/hr, NO Glucose or Potassium) Hydration Paediatric

For assistance with any of these processes please phone the Digital Health team PH: 3068 1999 and select option 1.

### Ordering

1. Navigate to the **Orders** page by selecting orders from the **menu**

2. Click **Add** from the top left-hand corner of this screen **+ Add**

3. Type in "onc hydration" in the Search box

then click the

magnifying glass

4. Select the appropriate order from the list and click 'Done' in the bottom right hand corner.

**Note:** "Interaction Checking unavailable" alert may appear.

5. The selected fluid will appear on the scratch pad:

6. Ensure the BSA (body surface area) box matches the CHARM order. If BSA box is blank, complete the box to auto-calculate the fluid rate:

**Note:** The BSA may auto-populate. Ensure this matches the CHARM order.

**Exception:** Tumour Lysis Syndrome Prophylaxis

7. Click **Sign** in the bottom right hand corner and enter your password

8. Refresh 1 minutes ago then go to the MAR to confirm the fluid has been ordered appropriately
