

Ordering consult to pharmacy and follow up to pharmacy tasks

PowerChart

Quick reference guide

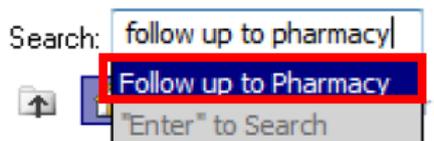

Follow Up to Pharmacy

Pharmacists are able to order a follow up to pharmacy, as a reminder or handover of tasks relating to patient care.

1. Log in to **PowerChart**.
2. Select **Orders** from the **menu**.

3. To add a new order, select  **Add**.
4. Search for **Follow Up to Pharmacy**.

5. Enter any required details into the order entry field.

Details for Follow up to Pharmacy

Consult to Pharmacy

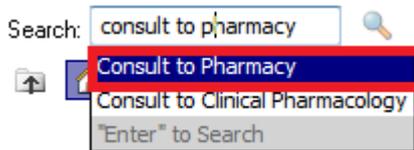

The only reason for a Pharmacist to order a Pharmacy Consult, is to request a review by the weekend clinical pharmacist.

Consults may also be attached to a PowerPlan when a prescriber initiates one (i.e. warfarin). Clinical inpatient pharmacists (including weekend clinical pharmacists) should refer to the Multi Patient Task List (MPTL) to view requested consults.

1. Log in to **PowerChart**.
2. Select **Orders** from the **menu**.

- To add a new order, select .
- Search for **Consult to Pharmacy**.

- Enter any required details into the order entry field. **Priority** should be set to **Urgent**.

- This consult will now appear in the consults to pharmacy in both the **Activities and Interventions** tab (also know as the Individual Patient Task List) and the **Multi Patient Task List (MPTL)** under the **Pharmacy Consults** tab.

Consult to ID Pharmacist

This is a pharmacist to pharmacist communication tool.

Examples of situations include:

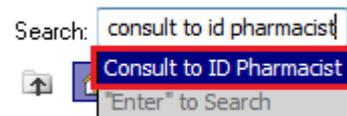

- Request for AMS pharmacist to provide advice.
- ID consulted but restricted antimicrobial approval number not provided.

Verbal communication should also still take place in time-critical situations.

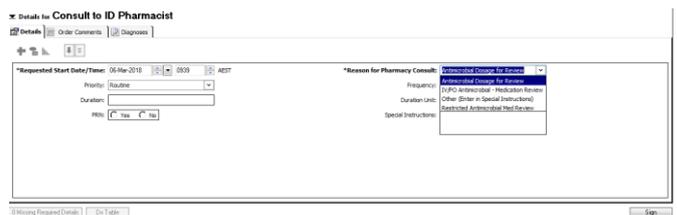

- Log in to **PowerChart**.
- Select **Orders** from the menu.

Orders 

- To add a new order, select .
- Search for **Consult to ID Pharmacist**.

- Enter any required details into the order entry field. **Priority** should be set to **Routine**.

- This consult will now appear in the consults to pharmacy in both the **Activities and Interventions** tab (also know as the Individual Patient Task List) and the **Multi Patient Task List (MPTL)** under the **Specialist Review** tab.
