# Orders – patient order history

## Care Delivery

### Quick reference guide

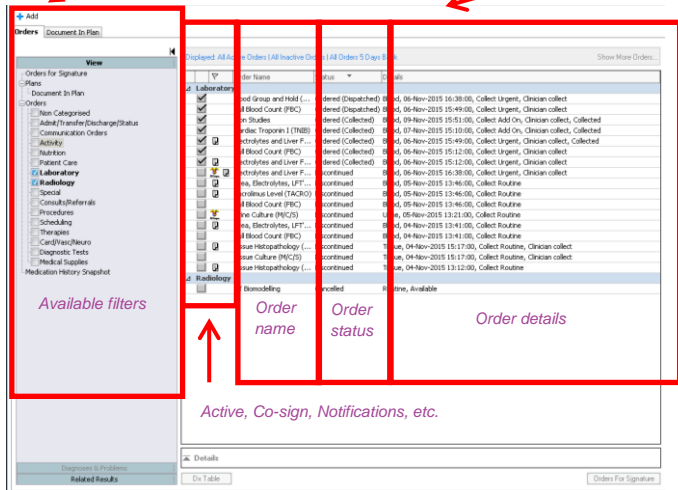

1. To view the Patient Order History, select **Orders** from the home page.

2. The **Order History** will now be displayed.

*New orders can be added by clicking here*

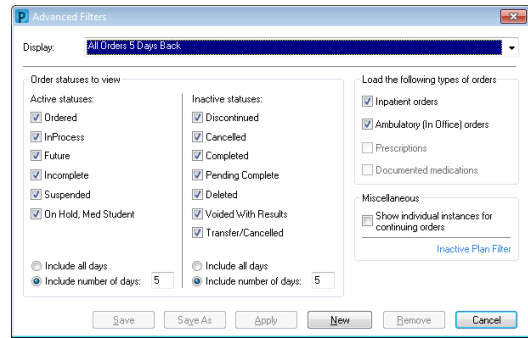

*Currently selected filters*

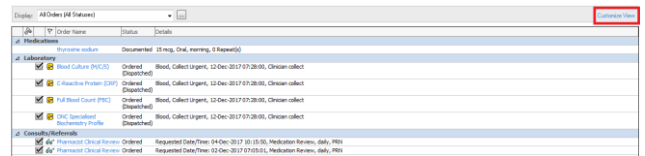

3. The currently active **Display** filter will be displayed at the top of the window.

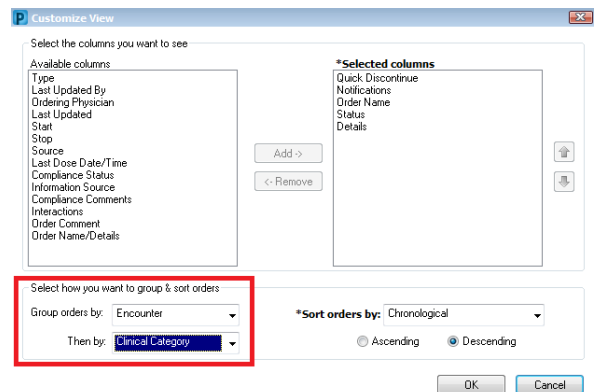

4. Clicking on the **ellipsis** next to the **Display** filter will bring up more options:

5. To group the Orders screen differently, you can click the **Customize View** hyperlink.

6. Use the **Group orders by** and **Then by** fields to change the view – for example, Group orders by: **Encounter**, Then by: **Clinical Category**.

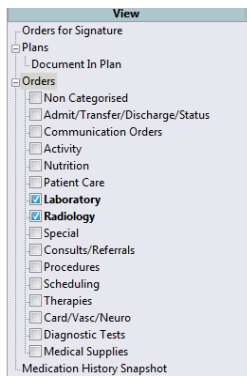

This view is useful for checking whether orders have been accidentally placed under the wrong encounter.

MBH A 4 4C; 23-24; 23 Fin#:131239 Admit: 04-Dec-2017 10:15 AEST			
Medications			
	thyroxine sodium	Documented	15 mcg, Oral, morning, 0 Repeat(s)
Laboratory
