Ordering Radiology - Physiotherapy

Quick reference guide

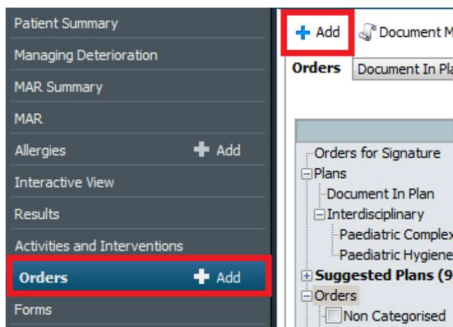

The **Orders** section of the Patient Medical Record allows electronic requests to be made for pathology and medical imaging.

Orders for radiology can only be placed by qualified advanced physiotherapists who have completed the Radiation Safety and Protection Training

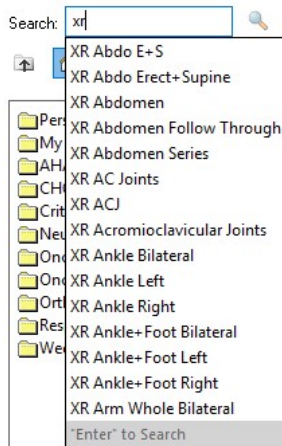

Ordering Radiology

To make a new order:

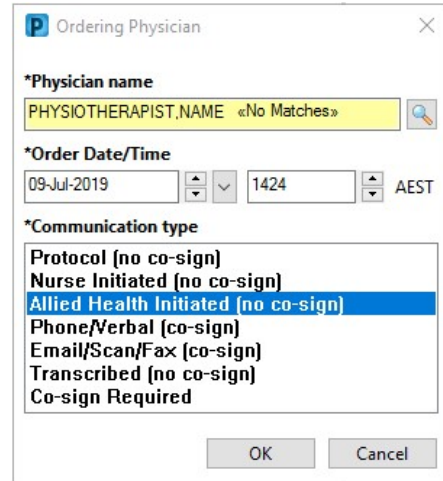

1. Open the patient chart in the correct encounter.
2. Go to **Orders** and select **Add**.

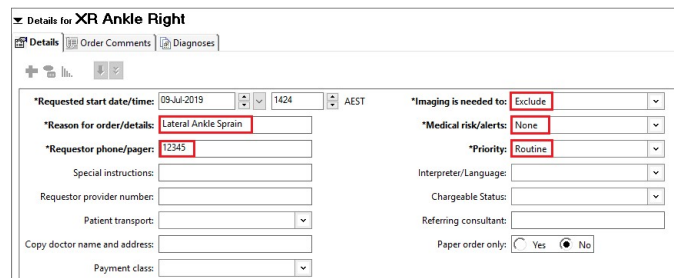

3. Search for **XR** and select the appropriate op

4. Search for your **name** and select **Allied Health initiated (no co-sign)**

5. Click **OK**
6. Complete the OEF as appropriate including mandatory fields

7. Click **Sign**
8. Enter **password** and click **OK** to sign off Order

It is the responsibility of the ordering clinician/physio to review all images in a clinically appropriate timeframe.
