

Queensland Paediatric
Rehabilitation Service

2021 outreach clinic dates

Queensland Paediatric Rehabilitation Service runs Outreach Clinics to allow children and families to access our services closer to home. These clinics are run in partnership with local paediatric teams. The clinics nearly always have more referrals than clinic spaces so it is important that referrals are received early. If you are unable to attend an appointment please contact us as soon as possible as we can then offer appointments to other children in the local area who may otherwise need to travel to Brisbane. Thanks.

Location	Dates
Rockhampton	17th to 19th February 4th to 6th August
