

Speech Pathology

Paediatric Feeding Learning Framework

E-learning courses

Children's Health Queensland, with the support of Queensland Health speech pathologists, are currently designing a series of e-learning courses to support health professionals, working both within and external to Queensland Health, to expand their capability for working with children with feeding difficulties.

The full suite of courses will include the following levels:

Development Level	Status	How do I enrol in this course?
Novice	Available	Access this course via the QHealth iLearn website (https://ilearn.health.qld.gov.au/d2i/login) and use the 'search' function (Paediatric Feeding Learning Framework) to find the course level/s and request enrolment. <ul style="list-style-type: none"> • If you don't have an iLearn account click 'Register for an iLearn account' • Scroll down to: I am employed by a Non-Queensland Health healthcare provider • Complete the instructions and information required
Foundation	Available	
Intermediate	Available	
Advancing	In development	

The e-learning courses have been primarily designed to support speech pathologists to expand their capability. The modules in each e-learning course can be completed in any order. The modules may be of interest to other health professionals to support inter-professional collaborative practice and build understanding of the speech pathology role in paediatric feeding cases, and participation is welcomed.
